

APPENDIX A

Glossary

APPENDIX A

Glossary

Construction Debris means structural building materials including cement, concrete, bricks (excluding refractory type), lumber, plaster and plasterboard, insulation, shingles, floor, wall and ceiling tile, pipes, glass, wires, carpet, wallpaper, roofing, felt, or other structural fabrics. It includes paper or cardboard packaging, spacing, or building materials, provided that they do not exceed ten percent by volume of the waste. It also includes paint containers, caulk containers, or glaze containers, provided that they are empty, and that any residual material is dry and further provided that this waste category does not exceed one percent by volume of the waste. Construction debris does not include commercial, domestic, or industrial waste or byproducts, paint, tar or tar containers, caulking compounds, glazing compounds, paint thinner or other solvents or their containers, creosote or other preservatives or their containers, tile, paneling, or carpet cement or other adhesives.

Demolition Debris means debris associated with the razing of buildings, road, bridges, and other structures including structural steel, concrete, bricks (excluding refractory type), lumber, plaster and plasterboard, insulation material, cement, shingles and roofing material, floor and wall tile, asphalt, pipes and wires, and other items physically attached to the structure, including appliances if they have been or will be compacted to their smallest practical volume. Demolition debris does not include industrial waste or byproducts or any waste materials contained within structure or on the grounds of the structure being demolished that are not physically part of the structure, or which are comprised of or certain materials that pose an undue risk to public health or the environment.

Land Clearing Debris means the following waste materials from land clearing operations: earthen material such as clay, sand, gravel, and silt; topsoil; tree stumps; root mats; brush and limbs; logs; vegetation; and rock.

Processing Facility means a combination of structures, machinery, or devices used to reduce or alter the volume, chemical, or physical characteristics of solid waste. A generator who processes his or her own solid waste at the site of generation and disposes of the processed solid waste off this site of generation at a disposal site permitted by the Department is not considered to be a processing facility.

Recyclable Material means those materials which would otherwise become solid waste, and which can be collected, separated, or processed and returned to the economic mainstream in the form of raw materials or products.

Recycling means any process by which source-separated materials, which would otherwise become solid waste, are collected, separated, or processed and returned to the economic mainstream in the form of valuable materials or products.

Recycling Facility means any facility designed and operated for the purpose of receiving, storing, processing and transferring valuable source-separated materials that would otherwise become solid waste back into the marketplace in the form of valuable raw materials or products. At least 85% of the materials received at the facility must be demonstrably capable of being returned to the marketplace and shall not be processed and stockpiled without identification of a verifiable market. Materials collected and delivered to a recycling facility may not be contaminated with more than a diminutive amount of putrescible solid waste, hazardous or toxic waste as defined by State or Federal law.

Rubble is a type of Solid Waste and includes Land Clearing debris, Demolition Debris and Construction Debris as defined herein.

Sanitary Landfill means a planned, systematic method of refuse disposal where waste material is placed in the earth in layers, compacted, and covered with earth or other approved covering material at the end of each day's operation, or any method of in-ground disposal of biosolids other than for fertilization of crops, horticultural products, or floricultural products in connection with an active agricultural operation or home gardening. A "Sanitary Landfill" includes a "Rubblefill" for construction and demolition materials.

Solid Waste means all discarded material and material stored prior to discard, combustible or noncombustible, from all public and private establishments and residences that is not presorted prior to collection for the purposes of recovery for reuse or recycling. Solid waste includes: ashes, trash, garbage, rubbish, offal, industrial and commercial refuse, and materials used in a manner constituting disposal, but not body excrements or pozzolan.

Solid Waste Acceptance Facility means any sanitary landfill or rubblefill, processing facility, transfer station, waste incinerator or any other type of facility that accepts solid waste for disposal, treatment, processing, composting, compacting, or the transfer to another solid waste acceptance facility.

Solid Waste Removal Service means a business involving the dispatching and storage of trucks or dumpsters for the purpose of solid waste removal.

Transfer Station means a place or facility where solid waste is taken from a transportation unit or collection vehicle (for example, compactor trucks) and placed in another transportation unit or collection vehicle (for example, over-the-road tractor-trailers, railroad gondola cars, barges or ships) for transport to other solid waste acceptance facilities. The movement or consolidation of single generator's solid waste at the point of generation is not a Transfer Station.

APPENDIX B
COMAR 26.03.03

Title 26
DEPARTMENT OF THE ENVIRONMENT

**Subtitle 03 WATER SUPPLY, SEWERAGE, SOLID WASTE AND POLLUTION
CONTROL PLANNING AND FUNDING**

Chapter 03 Development of County Comprehensive Solid Waste Management Plans
Authority: Environment Article, Title 9, Subtitle 85, Annotated Code of Maryland

.01 Definitions.

- A. In this chapter, the following terms have the meanings indicated.
- B. Terms Defined.
 - (1) “County” means any of the 23 Maryland counties or Baltimore City.
 - (2) County Plan.
 - (a) “County plan” means a comprehensive plan for adequately providing throughout the County (including all towns, municipals corporations, and sanitary districts) the following facilities and services by public or private ownership:
 - (i) Solid waste disposal systems;
 - (ii) Solid waste acceptance facilities; and
 - (iii) Systematic collection and disposal of solid waste, including litter.
 - (b) “County plan” includes all revisions to the plan.
 - (3) “Department” means the Department of the Environment.
 - (4) “Governing body” means the Board of County Commissioners, or the County Executive and Council, or the Mayor and City Council of Baltimore.
 - (5) “Litter” means any waste materials, refuse, garbage, trash, debris, dead animals, or other discarded material.
 - (6) “Refuse” means any solid, liquid, semi-solid, or contained gaseous material resulting from industrial, commercial, mining, or agricultural operations, or from community activities, which:
 - (a) Is discarded, or is being accumulated, stored, or physically, chemically, or biologically treated before being discarded; or

- (b) Has served its original intended use and sometimes is discarded; or
 - (c) Is a manufacturing or mining by-product and sometimes is discarded.
- (7) “Revision” means either an adopted amendment to, or a periodic update of, a County plan.
- (8) “Solid waste” means any garbage, refuse, sludge, or liquid from industrial, commercial, mining, or agricultural operations, and from community activities, but does not include solid or dissolved material in domestic sewage or in irrigation return flows.
- (9) “Solid waste acceptance facility” means any sanitary landfill, incinerator, transfer station or plant, whose primary purpose is to dispose of, treat, or process solid waste.
- (10) Solid Waste Disposal System.
- (a) “Solid waste disposal system” means any publicly or privately owned system that:
 - (i) Provides a scheduled or systematic collection of solid waste;
 - (ii) Transport the solid waste to a solid waste acceptance facility; and
 - (iii) Treats or otherwise disposes of the solid waste at the solid waste acceptance facility.
 - (b) A solid waste disposal system includes each solid waste acceptance facility that is used in connection with it.
- (11) “Solid waste management” means the systematic administration of activities which provide for the collection, source separation, storage, transportation, transfer, processing, treatment, re-use, or disposal of solid waste.

.02 General Provisions.

- A. Each county shall maintain a current, comprehensive, solid waste plan which covers at least the succeeding 10-year period. Each plan shall be prepared in accordance with these regulations, and shall be arranged with an introduction and five chapters as set forth in Regulation .03.
- B. Each county plan shall include all or part of the subsidiary plans of the towns, municipal corporations, sanitary districts, privately owned facilities, and local, State and federal agencies having existing, planned, or programmed development within the county to the extent that these inclusions shall promote the public health safety, and welfare. These subsidiary plans may be incorporated by reference into the county plan.

- C. The Department may require the installation of a solid waste disposal system, if deemed necessary, after considering the factors listed in Environment Article, Title 9, Subtitle 5, Annotated Code of Maryland. The Department may permit the establishment of a solid waste acceptance facility without a collection and transportation system if a solid waste disposal system is either not available or not required to be installed in the area.

.03 Plan Content.

- A. The introduction shall contain:
- (1) A statement certifying that the plan has been prepared in accordance with these regulations and that it has been officially adopted by the governing body of the county; and
 - (2) The letter of approval from the Department.
- B. Chapter One shall contain a:
- (1) Statement of the county's goals regarding solid waste management, the objectives and policies necessary to achieve these goals, and a discussion of the conformance of these objectives and policies with those of State, regional, and local comprehensive land use plans and programs;
 - (2) Brief discussion, with charts, of the structure of the county government as it relates to solid waste management; and
 - (3) Brief discussion of State, federal and local agencies, laws, and regulations which affect the planning, establishment, and operation by the county of solid waste disposal systems.
- C. Chapter Two shall contain a:
- (1) Table which shows the county's present and projected population (if more than one set of projections is shown, the set upon which the plan is based shall be noted);
 - (2) Map which shows the location of municipalities and federal facilities within the county;
 - (3) Discussion of current county zoning requirements as they relate to solid waste management activities; and
 - (4) Discussion of the current status of the county comprehensive land-use plan, including the date that the plan was adopted and last updated.

D. Chapter Three shall contain:

- (1) A table that shows the existing and projected, for at least the succeeding 10-year period, annual generation (in tons, cubic yards, or gallons, as appropriate) of:
 - (a) Residential (household, domestic) wastes;
 - (b) Commercial wastes;
 - (c) Industrial (nonhazardous) solids, liquids, and sludges;
 - (d) Institutional (schools, hospitals, government buildings) waste;
 - (e) Land clearing and demolition debris (rubble);
 - (f) Controlled hazardous substances (CHS);
 - (g) Dead animals;
 - (h) Bulky or special wastes (automobiles, large appliances, etc.);
 - (i) Vehicle tires;
 - (j) Wastewater treatment plant sludges;
 - (k) Septage; and
 - (l) Other wastes (water treatment plant sludges, residues collected by a pollution control device, agricultural wastes, mining wastes, litter, street sweepings, recreational wastes, etc.) unless they are generated in insignificant quantities. However, the Department may require the county to substantiate any omission.
- (2) A discussion of the bases for the data presented in the table required by D (1).
- (3) A discussion of the types and quantities of solid waste, if significant, which are entering or leaving the county for processing, recovery, or disposal.
- (4) A description of existing solid waste collection systems, including service areas.
- (5) Information concerning each existing public or private solid waste acceptance facility (incinerators, transfer stations, major composting sites, sanitary and rubble landfills, dumps, major resource recovery facilities, CHS facilities, injection wells, and industrial waste liquid holding impoundments) including:
 - (a) Its location on a map;
 - (b) Its Maryland grid coordinates;

- (c) Its size in acres;
- (d) The types and quantities of solid wastes accepted;
- (e) Ownership;
- (f) Permit status; and
- (g) Anticipated years of service life remaining.

E. Chapter Four.

- (1) Chapter four shall contain an assessment (using a narrative description, maps, charts, and graphs as appropriate) of the county's needs to alter, extend, modify, or add to existing solid waste disposal systems during the next 10 years.
- (2) The assessment above shall use, when appropriate, the background information contained in chapters one, two, and three.
- (3) The assessment shall consider the constraints imposed upon the establishment of solid waste acceptance facilities by:
 - (a) Topography;
 - (b) Soil types and their characteristics;
 - (c) Geologic conditions;
 - (d) Location;
 - (e) Use and depth of aquifers;
 - (f) Location of wetlands;
 - (g) Location of surface water sources and their flood plains and watersheds;
 - (h) Existing water quality conditions;
 - (i) Incompatible land use;
 - (j) Planned long-term growth patterns;
 - (k) Federal, State, and local laws and areas of critical State concern (as designated by the Department of State Planning).

- (4) The assessment shall evaluate:
- (a) The use of source separation and source reduction programs to reduce the quantities of solid wastes which shall be collected for disposal;
 - (b) Resource recovery options to reduce land disposal capacity needs;
 - (c) Consumer education programs, and cooperation with appropriate suppliers for the purchase of recycled products to encourage and help create a market for resource recovery and source separation programs;
 - (d) The need for disposal capacity for asbestos;
 - (e) Programs and procedures needed to respond to the unplanned (emergency) spillage or leaking of hazardous wastes within the county; and
 - (f) Whether existing local master plans and zoning regulations provide for the appropriate siting, operation, or both, of solid waste management systems or facilities.

F. Chapter Five.

- (1) Chapter five shall contain the county's plan of action with respect to all types of solid waste and all phases of solid waste management.
- (2) The plan of action in F (1), above, shall cover at least the succeeding 10-year period and, at a minimum, shall:
 - (a) Discuss the solid waste disposal systems and solid waste acceptance facilities, both public and private, which will be in use during the planning period, including proposed systems and facilities;
 - (b) Provide a mechanism for managing each of the waste streams identified in D(1);
 - (c) Demonstrate, through tables, charts and graphs, that the sizing, staging, and capacity of all systems and facilities in F(2)(a) and (b), above, will be adequate for the county's needs during the planning period;
 - (d) Establish schedules for placing new public or private solid waste disposal systems or solid waste acceptance facilities into operation, including a description of necessary actions and their timing, to bring the County's solid waste disposal systems into compliance with the mandates of pertinent federal and State laws, and any permits or orders issued under these laws;
 - (e) Describe provisions and methods for financing existing and proposed solid waste disposal systems, including planning and implementation;

- (f) Include a projected closure date for each public solid waste acceptance facility which is scheduled to cease operations during the planning period, the projected use of each closed site, and the relationship of that use to the County's comprehensive land use plan; and
- (g) Discuss changes in programs, plans, regulations, and procedures as a result of the assessment conducted under E, above.

.04 Technical Requirements Applicable to County Plans.

- A. Maps in the County plans shall be of sufficient scale and clarity to clearly show the required information.
- B. Projections in the County plans shall be given for at least the succeeding 10-year period at intervals of not more than 5 years.

.05 Plan Revisions.

- A. Except as provided in B, below, each county plan shall be:
 - (1) Revised if deemed necessary by the Department;
 - (2) Reviewed in its entirety at the interval specified by Environment Article, Title 9, Subtitle 5, Annotated Code of Maryland; and
 - (3) Revised to include the installation or extension of either a solid waste acceptance facility, or solid waste disposal system, before the issuance of a permit by the Department under Environment Article, Title 9, Subtitle 2, Annotated Code of Maryland.
- B. Exceptions. A revision for the sole purpose of including a private facility is not necessary if the:
 - (1) Facility accepts only wastes generated by the owner's operations;
 - (2) Facility is in general conformance with the management mechanism described in Regulation .03F(2)(b); and
 - (3) Information listed in Regulation .03D(5) is provided for the facility when the County plan is reviewed and revised in accordance with A(2), above.
- C. Revisions pertaining to County plans shall be adopted and submitted in accordance with the following process:

- (1) The County shall solicit input concerning the proposed revision from each of the entities listed in Regulation .02B, above, and from any other entity likely to be affected by the proposed revision.
 - (2) The County shall provide a reasonable opportunity for a public hearing concerning the proposed revision to the County plan. Prince George's County and Montgomery County are required by Environment Article, Title 9, Subtitle 5, Annotated Code of Maryland, to conduct a public hearing. The Department, the public, and the entities listed in Regulation .02B shall receive prior notice of a hearing.
 - (3) Following the public hearing or public meeting, or a decision not to conduct a public hearing or public meeting, the governing body of the County shall adopt the revisions and submit seven copies of it to the Department. This submittal shall be accompanied by a discussion of substantive issues raised at the public hearing or public meeting, and how they were resolved.
- D. The Department shall distribute copies of the adopted revision to the Departments of Natural Resources, State Planning, and Agriculture, for review and comment.
- E. The Department shall, within 90 days after receiving the submission, approve, disapprove, or approve in part, the adopted revision unless the review period has been extended under Environment Article, Title 9, Subtitle 5, Annotated Code of Maryland. If the submittal is disapproved in whole, or in part, the Department shall, in a written notice to the County, clearly define the inadequacies of the submittal, and provide a suggested outline of the tasks needed to improve the submittal so that it can be approved by the Department.
- F. The governing body shall, for 6 months following the disapproval, have the right to appeal the Department's action by sending a written notice of appeal to the Department's Office of Hearings at 201 West Preston Street, Baltimore, Maryland 21201.

Melwood Charities	5606 Dower House Road	<i>Upper Marlboro,</i>	301-599-8000	Accepts Cars, trucks, and boats.
Brown Station Container Pad	3500 Brown Station Road	<i>Upper Marlboro,</i>	301-627-1611	Accepts batteries, used oil, tires, antifreeze, non-commercial vehicles only!
Type of Recyclables Accepted				
Bottles & Cans				
Missouri Avenue Drop-Off Center	12701 Missouri Avenue	<i>Brandywine, MD</i>	301-372-6152	Accepts aluminum cans, glass bottles, tin cans, #1 & #2 plastics.

Prince George's Co. Materials Recovery F	1000 Ritchie Road	<i>Capitol Heights, MD</i>	301-499-1707	Accepts aluminum cans, glass bottles and jars, steel cans, plastic bottles.
City of Greenbelt, Dept. of Public Works	555 Crescent Road	<i>Greenbelt, MD</i>	301-474-8004	Accepts aluminum cans, glass bottles, tin cans, plastic bottles - City of Greenbelt Maryland Residents Only!
Brown Station Container Pad	3500 Brown Station Road	<i>Upper Marlboro,</i>	301-627-1611	Accepts aluminum cans, glass bottles, plastic bottles, non-commercial vehicles only!
Modern Recycling	15131 Old Marlboro Pike	<i>Upper Marlboro,</i>	301-627-1910	Accepts aluminum cans, non-ferrous scrap, 1 lb. minimum, roll-off service available.
Type of Recyclables Accepted				
Cardboard				
Box Express	9819 Rhode Island Ave.	<i>College Park, MD</i>	301-345-9472	Accepts standard moving and packaging boxes; No grocery store or dumpster boxes
Encore Recycling	13211 Virginia Manor Road	<i>Laurel, MD</i>	301-419-0180	Accepts Cardboard for recycling.
Type of Recyclables Accepted				
Clothing/ Textile				
Purple Heart				www.purpleheart.org
Planet Aid	8919 McGaw Ct	<i>Columbia, MD</i>	410-309-1002	Accepts clothes, shoes, linen and fabrics.

Goodwill Industries 12655 Laurel Bowie Rd *Laurel, MD* 301-490-5926 Accepts clothing for recycling and reuse

Concrete, Asphalt, Soil, Wood

Patuxent Materials, Inc. 6931 Baltimore Annapolis Boulevard

Valleywood Industries 6600 Landay Ave., P.O. Box 9687 *Baltimore, MD* 410-488-5500 Wood pallet recycling will collect and buy back, depends on the quantity and quality of product.

Patuxent Materials, Inc. 1801 South Monroe Street *Baltimore, MD* 301-261-3359 Accepts concrete, asphalt for proper disposal.

Aggregate & Dirt Solutions 5900 Sheriff Road *Capitol Heights, MD* 301-636-6240 Just accepts concrete for proper disposal.

Global Resource Recyclers, Inc. 2600 Marble Court *Forestville, MD* 301-568-2050 Accepts asphalt, concrete, dirt, top soil.

Concrete, Asphalt, Wood

Brandywine Enterprises, Inc. 5800 Sheriff Road *Fairmont Heights, MD* 301-925-8111 Accepts asphalt roofing shingles.

Richie Marlboro Road Rubblefield 2001 Richie Marlboro Road *Upper Marlboro, MD* 301-350-4059 \$75 Minimum charge; Only accepts cardboard.

Type of Recyclables Accepted

Accepts concrete, asphalt for proper disposal.

Wood pallet recycling will collect and buy back, depends on the quantity and quality of product.

Accepts concrete, asphalt for proper disposal.

Accepts asphalt, concrete, dirt, top soil.

Type of Recyclables Accepted

Accepts asphalt roofing shingles.

\$75 Minimum charge; Only accepts cardboard.

Chaney Enterprises 12130 Action Ln *Waldorf, MD* 301-475-8022 Accepts concrete only

Construction, Carpeting

Type of Recyclables Accepted
The Loading Dock 2 North Kresson Street <i>Baltimore, MD</i> 410-558-3625 Accepts Building Materials
Community Forklift 4671 Tanglewood Drive <i>Edmonston, MD</i> 301-985-5180 Reuse Center/ accepts Building Materials

Brandywine Enterprises	5800 Sheriff Road	<i>Fairmont Heights,</i>	301-925-8100	Accepts concrete can collect in roll off dumpsters, contact the sales department.

Global Resource Recyclers, Inc.	2600 Marble Court	<i>Forestville, MD</i>	301-568-2050	Accepts roofing shingles.
--	-------------------	------------------------	--------------	---------------------------

Foam Recycle Center	8107 Cryden Way	<i>Forestville, MD</i>	800-787-3626	Accepts polyurethane foam, good quality carpet pad, furniture foam, bedding foam, new carpet.
----------------------------	-----------------	------------------------	--------------	---

Newel Post	7600 Jefferson Street	<i>Lanover, MD</i>	301-627-4499	Building Materials retrieved from deconstruction and Unused Construction Materials
-------------------	-----------------------	--------------------	--------------	--

Design Recycle, Inc.	11103 Brookdale Lane	<i>Upper Marlboro,</i>	301-952-9137	consultant for wood pallets, collects and reproduces material from recycled glass, polystyrene, mixed plastic.
-----------------------------	----------------------	------------------------	--------------	--

Cooking Oil / Grease Disposal

Type of Recyclables Accepted

Donation Centers	Type of Recyclables Accepted
Valley Proteins, Inc. 1515 Open Street Greener Oil Company 11508 East Maple Avenue	<i>Baltimore, MD</i> 410-355-4800 <i>Beltsville, MD</i> 301-595-5115 Any type of used cooking oil or grease for disposal.
America Oil Recovery Moyer Packing Company	<i>Gaithersburg, MD</i> 240-388-4265 <i>Souderton, PA</i> 800-967-8325 Accepts cooking oil, fat/bone - Prince George's Rep. Bill Myers extension 3118, customer svc. Extension 3206.
Purple Heart The Loading Dock	Donorservices@purpleheartpickup.org <i>2 North Kresson Street</i> <i>Baltimore, MD</i> 410-558-3625 Accepts vehicle and boat donations. Accepts Donated Building Materials.
Community Forklift The Newel Post	<i>Edmonston, MD</i> 301-985-5180 <i>Landover, MD</i> 301-627-4499 Accepts Building Materials Accepts Deconstruction and used construction materials.
Mission of Love Charities, Inc. Mission of Love Charities, Inc.	<i>Mitchellville, MD</i> 301-333-4440 2708 Enterprise Road Accepts used furniture, clothing, and some Accepts used furniture, clothing, and some electronics.

Goodwill Industries

15810 Indianola Drive

*Rockville, MD*800-466-3345
Accepts clothing, appliances, furniture,
and some electronics**Electronics, Appliances**

Computer Docs

Type of Recyclables Accepted

Goodwill Industries	15810 Indianola Drive	<i>Rockville, MD</i>	800-466-3345	Accepts clothing, appliances, furniture, and some electronics
Computer Docs			240-395-0915	Computer refurbishing is done here.
cdm	1607 Wicomico Street	<i>Baltimore, MD</i>	410-525-1400	www.cdm4recycle.com ; Accepts any electronics with a cord. No televisions are accepted here.
Computer Donation Management, Inc.	3200 James Street	<i>Baltimore, MD</i>	410-644-9400	Accepts CPUs, monitors, disks, copy machines, audio/visual equipment, typewriters, phone systems.
Nur Tech	10752 Tucker Street	<i>Beltsville, MD</i>	301-937-0393	Accepts Electronics; Will collect from homes and businesses
Best Buy	15800 Collington Road	<i>Bowie, MD</i>	301-464-3080	Accepts Ink Cartridges, Rechargeable Batteries, Cell Phones, CDs, DVDs, PDA/ Smart Phones.
Mission of Love	6180 Central Avenue	<i>Capitol Heights, MD</i>	301-333-4440	VCRs in good working condition are accepted here.
Turtle Wings	1771 Olive Street	<i>Capitol Heights, MD</i>	301-583-8399	Accepts Computers, Monitors, Printers, Fax Machines, Televisions, Copiers, Power Supplies, UPS Backup Batteries (non alkaline batteries), CDs, DVDs,
Family Crisis Center	7701 Dunmanway	<i>Dundalk, MD</i>	410-285-4357	Accepts cell phones in working condition.

E-Structors, Inc.

6660 Santa Barbara Road *Elkridge, MD* 410-379-3098 100% recycling of computers and electronics.

Interstate Batteries

7445 East Furnace Branch Road
Glen Burnie, MD 800-492-4525 Batteries are accepted.

USA Lights

3408 52nd Avenue
Hyattsville, MD 301-699-6244 Accepts computers and monitors, batteries. No television monitors

Unicorn

Pensy Drive
Landover, MD 202-305-3768 Computer recycling contact Janice Aragon.

Man and Machine

3706 West Street
Landover, MD 301-341-4900 Only accepts Laptops!

Best Buy

14160 Baltimore Avenue
Laurel, MD 301-497-1890 Accepts Ink Cartridges, Rechargeable Batteries, Cell Phones, CDs, DVDs, PDA/ Smart Phones.

Call2Recycle

www.call2recycle.org
Maryland 678-218-1086 Free collection of rechargeable batteries, power tools, all types of cell phones, laptop computers, camcorders, digital cameras, and two-way radios
