It's how we **treat people.**

MedStar Southern Maryland Hospital Center

Expert clinicians, advanced technology close to home.

Presenter: Dr. Chile Ahaghotu, Vice President, Medical Affairs

July 6, 2021

MedStar Health

It's how we **treat people.**

- Serving our communities is at the heart of what we do at MedStar Health, by serving our patients across our 10 hospitals, ambulatory and urgent care locations, and through telehealth and home care services.
- As the largest healthcare provider in Maryland and the Washington, D.C., region, MedStar Health's 10 hospitals, MedStar Health Research Institute, and a comprehensive scope of health-related organizations are recognized regionally and nationally for excellence in medical care.
- By bringing medical services and programs to communities outside of the larger cities, as well as establishing new care sites in non-traditional medical settings, MedStar Health demonstrates its commitment to being a distributed care delivery network.

MedStar Southern Maryland Mission

It's how we **treat people.**

MedStar Southern Maryland Hospital Center, located in Clinton, Maryland, is an acute care hospital focused on caring for patients and their loved ones utilizing advanced technology under the guidance of expert clinicians. Quality, safety, wellness, and patient satisfaction are achieved through a spirit of patient centered services that connect us to the community we serve.

It's how we **treat people.**

From traumatic injuries to preventative care, professional athletes and collegiate teams from across the D.C. region visit our physicians for advanced and personalized orthopaedic care.

We provide care for 5 professional sports organizations, 15 collegiate organizations, 8 local, well known races/marathons, and 13 recreational teams and other affiliations.

Population & Community Health

It's how we **treat people.**

- The team focused on providing COVID-19 vaccinations to our community, from February 2021 to June 2021.
 - MedStar Southern Maryland received an HSCRC grant to continue vaccination efforts in underserved areas of the county.
- Dr. Chile Ahaghotu, our Vice President, Medical Affairs, presented in several local virtual community meetings this past year. Topics included COVID-19 vaccinations, men's health and an overview of our new emergency department.
- Screening, Brief Intervention, and Referral to Treatment (SBIRT) remains a high priority for our hospital.
- As a member of TLC MD, MedStar Southern Maryland received funding from two HSCRC Catalyst Grants in FY21.
 - The first grant will help us to provide community-based behavioral healthcare in our region.
 - The second grant will help us to expand diabetes prevention and self-management program access. We will also provide support services, including medication and supply drop-off and nutrition counseling.

MedStar Georgetown Cancer Institute

It's how we **treat people.**

- Opened in February 2020 at MedStar Southern Maryland
- State-of-the-art infusion center
- Unique radiation therapy options
 - **Zap-X**, the first radiosurgery system of its kind on the east coast to treat head and neck and brain tumors

MedStar Health

- Joined MHVI-Cleveland Clinic alliance in 2017
- Patients in Southern Maryland benefit from an exceptional and unmatched level of heart and vascular care due to this elite alliance
- MedStar Southern Maryland has state-of-the-art catheterization labs and an electrophysiology lab
- An advanced heart failure clinic is available on-site
- A dedicated inpatient cardiac unit is opening this summer

Our Commitment to Safety

It's how we **treat people.**

In FY21, there were:

- **ZERO** infections related to hip and knee replacements.
- **ZERO** MRSA infections for the second year in a row.
- **ZERO** catheter and central line associated infections in our ICU (CAUTIs and CLABSIs)
- **Top decile** (Vizient) results in hospital C. difficile infections and maternal mortality.

Our New Emergency Department and Front Entrance

MedStar Health

A New Beginning

It's how we **treat people.**

- We broke ground in September 2019.
- Despite COVID-19, construction was never delayed. We stayed on track and opened on time.
- Total cost of this project was \$43M.
- Over \$1M of this project was funded through philanthropy and grants. This included donations from over 100 enthusiastic MedStar Health associates, and \$500K was provided through a grant from the state of Maryland.
