COMMITTEE REPORTS:

BACKGROUND INFORMATION/FISCAL IMPACT:

(Includes reason for proposal, as well as any unique statutory requirements)

This Resolution is requesting required District Council approval of the public safety radio towers and radio system equipment for the purpose of building a land mobile radio system. District Council approval of public structures and uses is required pursuant to Section 27-292 of the Zoning Ordinance.

Pursuant to Section 27-294 of the Zoning Ordinance, the list of public safety radio towers was referred to the Planning Board on September 11, 2007 and was reviewed by the Planning Board at its regular meeting of September 20, 2007. The Planning Board recommendations were transmitted to the County Council under separate cover.

10/2/2007 - Under Section 27-292 of the Zoning Ordinance, the District Council must approve proposed new radio towers and new radio equipment on existing towers as "public buildings, structures, and uses." The Planning Board has reviewed the location and use of the new towers and new equipment; it transmitted recommendations to the District Council by resolution on September 24, 2007. The proposed District Council Resolution authorizes construction and use of the new radio towers and new radio equipment.
