Subject: Reschedule hearing

CAUTION: This email originated from an external email domain which carries the additional risk that it may be a phishing email and/or contain malware.

Hi Ms Carter,

I'm writing to advocate for the DSP-21001 hearing to be rescheduled from Feb. 26 to Mar.11. I feel like a broken record because I've written a similar email so many times now, but I do think it's important that we (county and city government) give members of the public (i.e., impacted parties, advocates, subject matter experts) adequate time to review complex documents and prepare their testimony.

This time around, the deadline for testimony was set 4 days early due to the federal President's Day holiday. Those 4 days are needed by members of the public who review and analyze documents on their personal time. It would be fair and in alignment with County Council procedure to either reschedule the hearing to the next meeting of Monday, March 11 or extend the deadline for testimony/comments.

Thank you!

Joanne
