

# PRINCE GEORGE'S COUNTY GOVERNMENT

## Office of the County Executive

March 1, 2022

The Honorable Calvin S. Hawkins, II  
Chair  
Prince George's County Council  
County Administration Building  
Upper Marlboro, Maryland 20772

Dear Chair Hawkins:

As required by CB-73-2021/Sec. 26-114.02. "Authority to install and utilize residential district speed monitoring systems", which was adopted by the County Council on November 9, 2021, I am requesting that the County Council schedule and conduct a public hearing to garner public comment on the attached lists. The list labeled as "Potential First Phase Residential Automated Speed Enforcement Sites " includes locations where staff in the Department of Public Works and Transportation (DPW&T) and the Prince George's County Police Department (PGCPD) have determined are initial locations that will make a significant impact on advancing safety and the principles of Vision Zero. Accidents and speed evaluations were used to identify these locations as candidates for first phase designation.

The list identified as " First Phase Residential Speed Camera Locations " are potential installation sites. However, this list is not exhaustive, and those cited have not been determined as automated speed enforcement locations. They are provided as examples of locations that could, if requested, potentially result in automated speed enforcement. Ultimately, each potential location will be evaluated individually utilizing safety centered, data-based criteria.

In addition, the legislation makes changes to the provisions set forth in CB-37-2009, pertaining to the establishment of a citizen advisory committee to meet periodically for the purpose of obtaining additional public comment. The composition now requires two (2) representatives from each Council District selected by the respective Councilmembers, two (2) representatives from each At-Large Council Member and three (3) representatives from the Office of the County Executive for a total of twenty-five (25) members. Consequently, I encourage the Council Members to identify and appoint their representatives as quickly as possible. Please send the names and associated contact information to the attention of Captain Jason Smith, Prince George's County Police Department at [jcsmith1@co.pg.md.us](mailto:jcsmith1@co.pg.md.us).

The Honorable Calvin S. Hawkins, II

Page Two

The authority given by the state and subsequent County legislation provide an important new tool to help us make our county roadways safer for all users. It is important that we expeditiously take the necessary steps to enable its usage. Therefore, I ask that the Council schedule a public hearing within the next 30 days to allow for the prompt implementation of the residential automated speed enforcement program.

The Council's favorable consideration of these requests is appreciated. Should you require additional information, please contact DCAO Floyd Holt at [feholt@co.pg.md.us](mailto:feholt@co.pg.md.us).

Sincerely,

Angela D. Alsobrooks  
County Executive

Enclosure
