AFFECTED CODE SECTIONS:

BACKGROUND INFORMATION/FISCAL IMPACT:

This legislation establishes a voluntary program to incentivize housing developers to build more affordable single-family housing in Prince George's County. Under this program, developers enter into an agreement with the County to build minimum number of homes in a proposed development to be sold at a moderate price. In exchange for offering these homes at a below-market sales price, the developer can access density bonuses, fee waivers and expedited review of final plat and building permit applications. Homes will be offered to eligible households who register with the Department of Housing and Community Development and sold at a price affordable to those making between 60% -100% of the area median income. The program places limits on the resale of these moderately priced homes for a thirty-year period. Finally, this legislation authorizes the Director of DHCD to publish regulations governing the program and requires annual reporting on housing generated through the program.
