

CUSTOMER AND COMMUNITY BENEFITS PRINCE GEORGE'S COUNTY

- **\$21.7 million** for a one-time \$50 rate credit for Maryland residential heating customers.

Of the total amount, approximately \$8.3 million will go to Prince George's County residential customers.

- **\$103 million** to expand natural gas infrastructure in the state of Maryland:
 - **\$70 million** over 10 years in the Washington Gas service area, including Prince George's County.
 - **\$33 million** to promote economic development, job creation and the expansion of natural gas infrastructure to underserved parts of Maryland, including in Washington Gas's service territory.
- **\$28.4 million** to Montgomery and Prince George's counties for customer, educational and workforce development programs.

Of the total amount, \$13.4 million will go to support Prince George's County's Transforming Neighborhoods Initiative (TNI) Clean Energy Program, ENERGY STAR Certification and Green Leasing Program, and any other Prince George's County energy distribution-related customer or educational programs.

At least 20% of the dollars provided to support these programs will be directed to supporting low-and-moderate income customers, with an emphasis on reducing gas utility bills in low-and-moderate-income homes and in multi-family housing.

- **\$4.6 million** for MEA programs to support commercial and industrial customers in Washington Gas's service territory, but with particular emphasis on Calvert, Charles, Frederick and St. Mary's Counties.
- **5 MW** of New Renewable Energy Resources developed in Montgomery and Prince George's counties.

AltaGas will coordinate with Prince George's County to develop or cause to be developed at least 2.5 MW of either electric grid energy storage, Tier 1 renewable resources, fuel cells, combined heat and power resources, or other distributed generation to be located in Prince George's County, including at government buildings.

- AltaGas' U.S. power business head office will be relocated to Prince George's County.
