

Aisha N. Braveboy
County Executive

DEPARTMENT OF THE ENVIRONMENT TIEE COMMITTEE

Elevating Climate Action in Prince George's County
OCTOBER 23, 2025

Samuel B. Moki, Ph.D., Director

Derrick L. Coley, Deputy Director

Presenter: Katie Dickinson, Climate Action Officer

Agenda

- I. Update on Current Climate Action Initiatives
- II. Timeline of Climate Action in Prince George's County
- III. FY26 Climate Action Implementation Strategy Priorities
- IV. Climate Action Plan (CAP) and Climate Action Implementation Strategy Plan (CAISP)

Braveboy Climate Leadership Summit

- Goals of the Summit:
 - Spotlight current initiatives
 - Showcase successful partnerships
 - Equip participants with tools and strategies to accelerate local climate action

Climate 101 for County Employees

- Made in partnership with OHRM
- Now available on NEOGov for all County employees
- Pending OHRM Director and CAO approval, Climate 101 will be made mandatory for all employees in January 2026

Resilience Hubs

- Resilience hubs support residents before, during, and after local climate-related events.
- Hubs serve as coordination points for communications, distributing resources, building community cohesion, and advancing climate mitigation and adaptation goals year-round.
- County-based resilience hubs are being planned for Hyattsville Library and Colin Powell Academy.
- Small grants are being planned for community-based organizations through Chesapeake Bay Trust to implement resilient hubs.

**Prince George's County Community
Resilience Hub Grant Program
Request for Proposals**

Interagency Climate Committee (ICC)

- Establishes a Whole-of-Government approach to operationalizing the Climate Action Plan
- Composed of 2 representatives from each government agency and quasi-government agency
- Host monthly meetings and Sub Working Groups

Soil Conservation District

Timeline of Climate Action in Prince George's County

FY26 Climate Action Implementation Strategy Priorities

1. Finalize the Climate Action Plan (CAP) and release the Climate Action Implementation Strategy Plan
2. Continue a Whole-of-Government Approach to operationalize the CAISP with the Interagency Climate Committee (ICC)
3. Host the Braveboy Climate Leadership Summit
4. Launch an Employee Climate Literacy Campaign
5. Develop a climate-ready budget
6. Develop a Resilience Hub network
7. Measure and Reduce Employee Vehicle Miles Traveled
8. Lead by Example by Greening County Operations

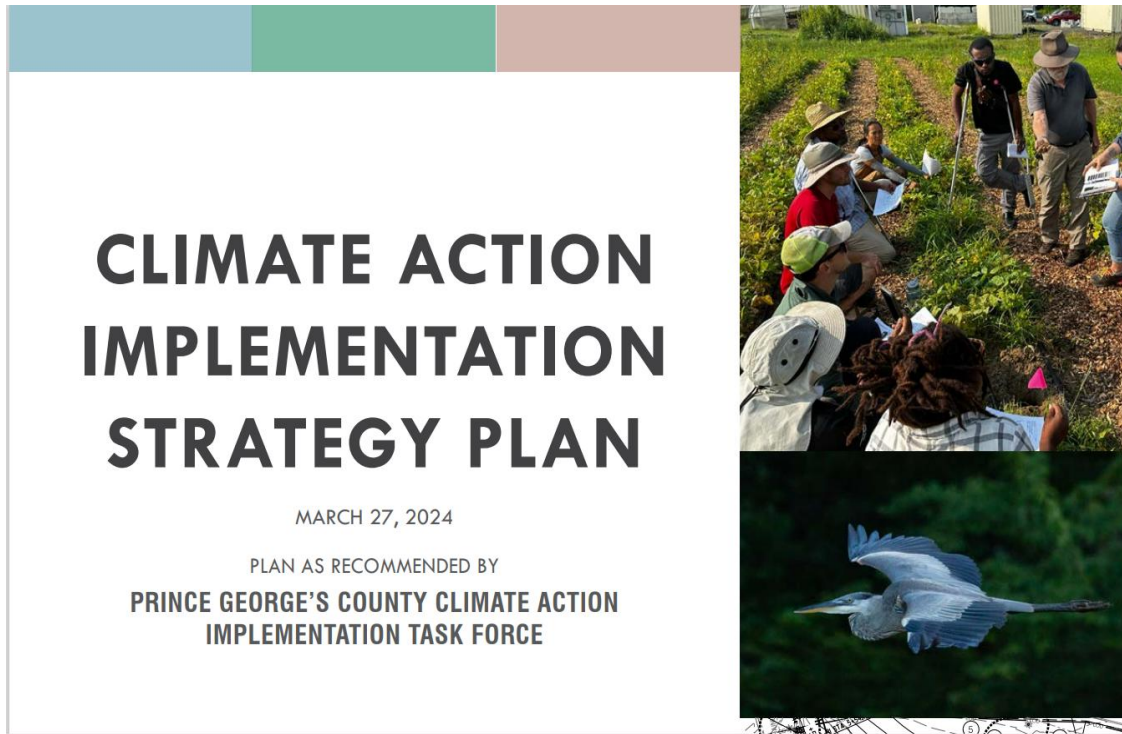

Prince George's County Climate Action Plan (CAP)

- Outlines 26 Priority Recommendations to **50% reduction of community-wide greenhouse gas emissions by 2030** (compared with 2005 levels)
- Needs to be finalized by County Council
- Recommendations include:
 1. Commitment to clean and renewable energy
 2. Integrating climate resilience criteria into long-range County plans, policies, and CIP programs
 3. Meaningful, equitable community engagement
 4. Resilient and green building codes and standards
 5. Leading by example in County Operations

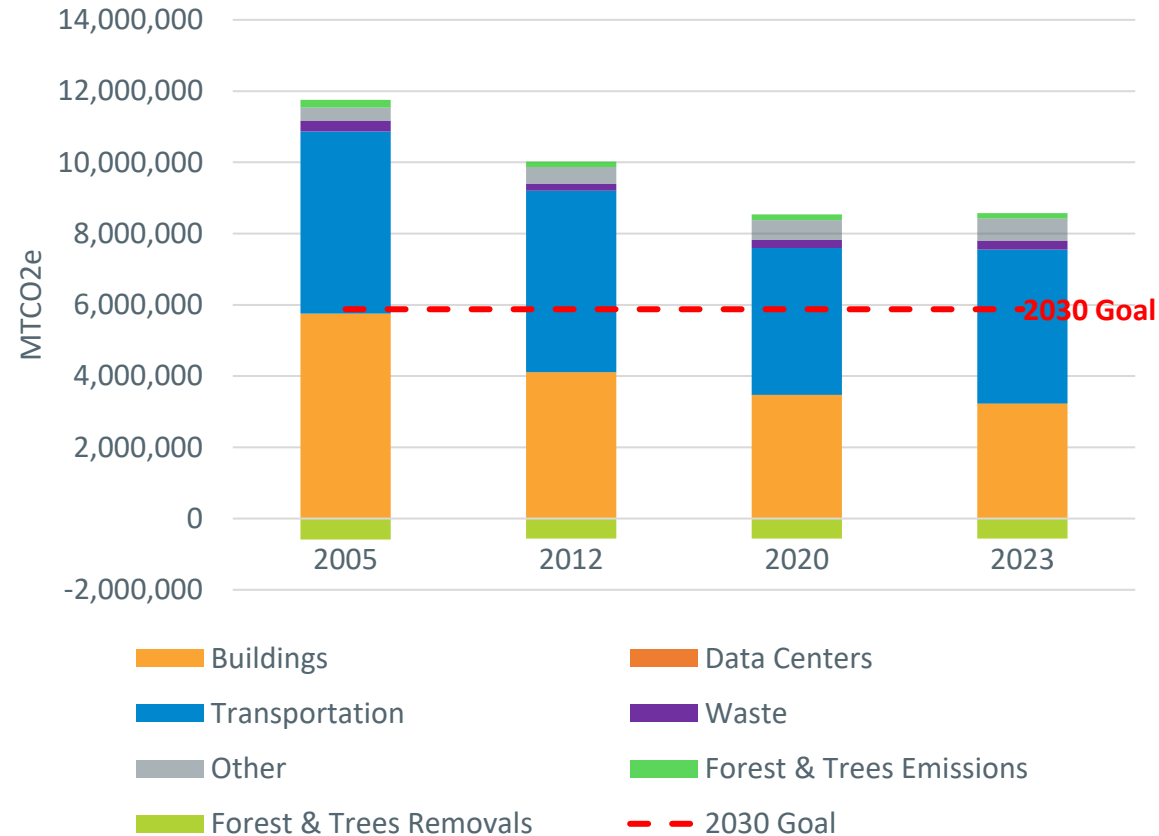

Prince George's County Climate Action Implementation Strategy Plan (CAISP)

- Based on the CAP, and is practical, actionable, and relatable to the terms, metrics, and outcomes of the County government.
- Serves as a "roadmap" to operationalize the Climate Action Plan and achieve our emissions reduction goals.
- Divided into three overarching strategies – Leadership, Mitigation and Adaptation.
- Needs to be approved by CEX and released to the public.

Community-Wide Emissions Reduction Progress

The County has **5 years** left to decrease emissions by 22% if we are to meet our Climate Action Plan goals.

Draft County Emissions Reduction Progress as of 2023, provided by
MWCOG

Thank You!
