

PRINCE GEORGE'S COUNTY COUNCIL
COMMITTEE REPORT
2026 Legislative Session

Reference No.: CB-059-2026

Draft No.: 1

Committee: Committee of the Report

Date: June 9, 2026

Action: FAV

REPORT:

VOTE: Favorable – 9-0 (Council Chair Oriadha, Adams, Burroughs, Dernoga, Fisher, Harrison, Hunter, Ivey and Olson)

The County Council sitting as the Committee of the Whole met on June 9, 2026, to consider CB-059-2026.

Staff provided an overview of CB-059-2026, indicating it would amend Fiscal Year 2026 Capital Budget by providing additional funding for several previously approved projects. The supplemental appropriations are intended to address project needs and support continued progress on County initiatives related to environmental compliance, community recreation infrastructure, and animal shelter facilities. CB-059-2026 ensures that sufficient resources are available to advance projects and maintain planned implementation schedules.

Lavinia Baxter, Senior Budget and Policy Analyst, prepared the Policy Analysis and Fiscal Impact Statement for CB-059-2026 identifying the projects affected by the legislation, the corresponding agencies, and the proposed current-year and budget-year funding adjustments. The report also provided a description of each project and concluded that enactment of CB-059-2026 would likely have a favorable direct fiscal impact on the County. The proposed supplemental allocations would provide additional funding from state and federal grant sources, low-cost financing, and reallocations, helping to accelerate project implementation and advance critical County infrastructure and capital improvement projects.

The County Council sitting as the Committee of the Whole voted favorably 9-0 on CB-059-2026.
