## LEGISLATIVE HISTORY

BACKGROUND INFORMATION/FISCAL IMPACT (Includes reason for proposal, as well as any unique statutory requirements)

The County's Classification Plan does not contain any limitation on the number of positions which may be created. The proposed bill would amend the Classification Plan by placing limits on the number of positions, identified by department or agency, which may be created. A new plan must be submitted by the Personnel Officer by June 30 of each year to reflect changes to the authorized personnel complement of each department or agency as reflected in the adopted budget. The Personnel Officer may not authorize the filling of positions beyond the number authorized in the approved Classification Plan.
