# Health Indicators

“We have the greatest hospitals, doctors, and medical technology in the world - we need to make them accessible to every American.”

Barbara Boxer

Less than ten years ago, Prince Georgians had shorter lifespans than both their fellow Marylanders and the rest of the country, but today county residents outlive their contemporaries throughout Maryland, and across the United States. Though there is a slight drop-off from the 2014 high water mark lifespan of 80 years, we must congratulate our health professionals and our county health agencies for making health education a continuing priority for our residents.

# Health Indicators

## Percentage of Low Birth Weight Babies (less than 2,500 grams)

Year	Total Births	<2,500 grams	% under 2,500
2011	12,190	1,219	10.0%
2012	11,960	1,196	10.0%
2013	11,865	1,120	9.4%
2014	12,288	1,136	9.2%
2015	12,344	1,126	9.1%
2016	12,320	1,193	9.7%
