¹Sources of information, assumptions, and methodologies used

The Office of Management and Budget reviewed the language of the legislation being proposed as well as the Fiscal and Policy Note prepared by the Budget & Policy Division on October 7, 2025.

²Estimate of changes in County revenues and expenditures regardless of whether the revenues or expenditures are assumed in a recommended or approved budget

The legislation does not directly require expenditure of resources or additional personnel, and the Department of Permitting, Inspections, and Enforcement (DPIE) may utilize existing personnel and resources to implement these requirements. However, given the potential for increased workload, DPIE may choose to request additional resources and/or increase spending on overtime. It is indeterminate how much, or whether, DPIE will require additional resources to implement at this time.

The legislation may result in increased collection of revenue due to the imposition of fines and ability to attach outstanding fines to the real property's tax bill. It is indeterminate how much, if any, additional revenue this will generate.

³An estimate of additional staff and resources needed to implement the legislation

See above.

⁴Analysis of the full personnel cost of the legislation

See above.

⁵An explanation of revenue or expenditures that are uncertain or difficult to project

See above.

⁶If the legislation is likely to have no fiscal impact, why that is the case

While the amounts are indeterminate, the legislation may result in increased expenditures and collections of revenues.
