The Honorable Calvin S. Hawkins, II, Chair
Prince George's County Council

RE: Commitment to Minority Business Enterprise Utilization

Dear At-Large Member Hawkins:

It is with great honor and excitement, on behalf of Luminis Health Doctors Community Medical Center, Inc. ("LHDCMC"), to express LHDCMC's commitment to our partnership with Prince George's County. Our partnership will significantly expand access to high-quality behavioral health services for Prince Georgians. A central component to this initiative is the capital improvement of a building on LHDCMC's campus to house the provision of comprehensive inpatient and outpatient behavioral health services. To make this capital improvement possible, LHDCMC must engage a team of contractors over the coming weeks and months.

It is our solemn commitment that during this process of engaging contractors for the capital project, we will meet a requirement to utilize twenty percent (20%) Minority Business Enterprises. Furthermore, we will pursue every opportunity to engage local Minority Business Enterprises with the goal of reaching that 20% threshold with local Minority Business Enterprises.

Over the coming years, it will be my honor to discuss any and all aspects of our partnership, this commitment, and the delivery of behavioral health services more broadly with you and the Prince George's Council.

Sincerely,

A handwritten signature in black ink that reads "Deneen Richmond".

Deneen Richmond
President, LHDCMC
