Donna Brown
Clerk of the County Council
Prince George's County

Item: DSP 21001 – Magruder Pointe-Suffrage Point South

Requested Actions: Reschedule Oral Arguments to March 11, 2024
Deny Detailed Site Plan – DSP 21001
Uphold the Law and Protect the Credibility of the Planning Process

Dear Ms. Brown.

Please confirm receipt of this letter, and please ensure that it is included in the official record for Detailed Site Plan 21001.

I am a Person of Record in this case. I live in Hyattsville, near Driskell Park, Magruder Woods Park, and the former WSSC property. I respectfully request that the District Council reschedule oral arguments to March 11, 2024, to allow all parties adequate to submit full comments. I strongly oppose Werrlein's plan to build 41 townhouses on the lower parcel. Regardless of whether the District Council chooses to reschedule this hearing, for the following reasons and others, I respectfully urge the District Council to deny Werrlein's application.

Werrlein still lacks the state-federal floodplain and wetland approval that it is required to have at the Detailed Site Plan stage. Most or all of the lower parcel lies in 100-floodplain of the Northwest Branch. Werrlein also lacks the required state-federal stormwater permit.

The Planning Board ignored the fact that none of Werrlein's stormwater and floodplain plans, or county approvals of those plans, account for climate change. FEMA's floodplain maps are badly obsolete. Global warming is bringing more severe storms, and the lower parcel sits adjacent to Hyattsville's most heavily used park, a forested wetland and stream valley, a tributary to the Northwest Branch, and families' homes.

The Planning Board failed to give adequate weight to evidence documenting Werrlein's deplorable record of environmental violations, as well the County's general failure to enforce environmental laws. It is deeply disturbing that Werrlein apparently has operated on the site without required county, state and federal environmental permits, flooded repeatedly flooded Gallatin Street with polluted stormwater, and discharged sediment pollution into the Northwest Branch of the Anacostia River on numerous occasions.

The townhouse density for this project radically exceeds the density allowed in this residential zone and any density in nearby neighborhoods in this zone.

This project will provide little or no useful public open space, as the Gateway Arts District Sector Plan contemplated. Our schools already are badly over capacity, and it appears Hyattsville Elementary School now must be rebuilt on the same small site, with little or no green space. Our local streets, including 40th Place, which is narrow, winding, and hilly, already are heavily burdened with cut-through traffic heading to and from Route 1.

The credibility of the planning process is at stake here and has been at stake throughout the Magruder Pointe-Suffrage Point proceedings. Again, I respectfully urge the District Council to deny DSP 21001.

Thank you for taking time to consider my request and for your service to the community. Please let me know what actions you take or plan to take.

Sincerely,

A handwritten signature in black ink, appearing to read "Theresa Immordino". The signature is fluid and cursive, with a large loop at the end.
