provide enhanced fire protection to the service area of Branchville Fire Station #11; and

WHEREAS, the County Executive has recommended to the County Council a change in

the project description for Branchville Fire Station #11, whereby this project will consist of a renovation and addition to the existing station;

NOW, THEREFORE, BE IT RESOLVED by the County Council of Prince George's County, Maryland, that the project description on page 382 of the Approved FY 1997-2002 Capital Improvement Program for Branchville Fire Station #11 is hereby amended to provide for a renovation and addition to the existing station.

BE IT FURTHER RESOLVED that the new project description for the Branchville Fire Station #11 will read as follows:

"This project consists of renovations and additions to the existing station. The renovations will be made by the Branchville Volunteer Fire Corporation. It will provide improvements to the bunk-room, enlargement of the engine bays and renovations to office and meeting rooms. The programmed funds represent the County's financial participation in this project. This renovation is a substitute for the previously planned replacement station."

Adopted this 13th day of May, 1997.
