The Prince George's County Council convened as the Committee of the Whole on March 24, 2022, to consider CB-006-2022. CB-006-2022 is a capital improvement program interproject transfer of appropriations bill that will amend the FY 2022 Approved Capital Budget.

This legislation transfers appropriations from Lead Remediations (4.77.0050) to Playground Equipment (4.77.0006) for the Board of Education for a total amount of \$400,000 and transfers appropriations from MS4/NPDES Compliance & Restoration (5.54.0019) to Bear Branch Sub-Watershed (5.54.0016) for a total of \$1,750,000. These appropriation realignments are needed to cover budget shortfalls in the projects receiving the transferred appropriations and allow for expenditures related to the receipt of supplementary appropriations.

The Committee received a very thorough overview of CB-006-2022 from Stanley Early, Director, Office of Management and Budget, and explained the need for this interproject transfer is primarily to cover budget shortfalls.

The Office of Law finds CB-006-2022 to be in proper legislative form with no impediments to its enactment.

The Policy Group finds that monies involved in CB-006-2022 are appropriated in the current year fiscal year.

After discussion, the Prince George's County Council, sitting as the Committee of the Whole, reported CB-006-2022 out favorably, 9-0.
