2 levels earn approximately thirty percent (30%) less than their more literate peers, negatively  
3 affecting economic stability within Prince George's County communities; and

5 disadvantaged populations within Prince George's County, exacerbating existing inequities and  
6 limiting opportunities for upward socioeconomic mobility; and

14 WHEREAS, effective literacy enhancement requires coordinated strategies among schools,  
15 libraries, community organizations, government agencies, and educational institutions; and
