RESOLUTION

1 A RESOLUTION concerning

2 Improving Prince George’s County’s Literacy

3 For the purpose of establishing the Prince George’s County Literacy Commission (“the
4 Commission”) to develop strategic initiatives to assess, address, and improve literacy rates
5 among residents in Prince George’s County.

6 WHEREAS, literacy is essential for individual empowerment, educational attainment,
7 economic growth, and overall community development; and

8 WHEREAS, according to the National Center for Education Statistics, in 2023, twenty-
9 eight percent (28%) of U.S. adults scored at or below Level One (1) in literacy, indicating a
10 significant portion of the population struggles with basic reading tasks; and

11 WHEREAS, in 2024, Maryland's average reading score for fourth-grade students was only
12 thirty-four percent (34%) performing at or above the National Assessment of Educational
13 Progress’ Proficient level, highlighting ongoing challenges in early literacy; and

14 WHEREAS, Prince George’s County Public Schools reported that in the 2023–24 academic
15 year, English Language Arts proficiency across all tested students ranged from twenty-seven
16 percent (27%) to sixty-nine percent (69%), indicating significant disparities in literacy
17 achievement within the County; and

18 WHEREAS, according to the U.S. Census Bureau’s American Community Survey data,
19 approximately thirteen percent (13%) of Prince George’s County residents aged twenty-five (25)
20 and older did not attain a high school diploma, indicating a significant portion of the adult
21 population possibly facing challenges related to low literacy skills; and

1 WHEREAS, low literacy levels among adults contribute significantly to unemployment and
2 underemployment, with the U.S. Department of Labor indicating that adults with lower literacy
3 levels earn approximately thirty percent (30%) less than their more literate peers, negatively
4 affecting economic stability within Prince George’s County communities; and

5 WHEREAS, literacy issues disproportionately impact minority and economically
6 disadvantaged populations within Prince George’s County, exacerbating existing inequities and
7 limiting opportunities for upward socioeconomic mobility; and

8 WHEREAS, the Prince George’s County Memorial Library System has identified a
9 growing demand for adult literacy resources, including English as a Second Language (ESL), to
10 support the County’s diverse and multilingual population; and

11 WHEREAS, The Prince George’s County Workforce Development Board recognizes that
12 low adult literacy levels hinder employment opportunities and economic growth, emphasizing
13 the importance of adult education and literacy initiatives in workforce development strategies;
14 and

15 WHEREAS, effective literacy enhancement requires coordinated strategies among schools,
16 libraries, community organizations, government agencies, and educational institutions; and

17 WHEREAS, the County Council recognizes the importance of addressing literacy
18 disparities to improve community resilience, educational success, and economic
19 competitiveness;

20 WHEREAS, Section 506 of the Prince George’s County Charter authorizes the County
21 Council to appoint temporary advisory boards and commissions to assist in the consideration of
22 county policies and programs; and
