Thank you for the opportunity to comment on this legislation.

I would only note that the required setback from certain zones and uses may have the affect of allowing the Medical Cannabis uses to abut properties in those proscribed zones or uses since the distances are measured “following the shortest direct distance on public right-of-way. If this is not the sponsor’s intent I would recommend that additional language be added to note that the Medical Cannabis Use may not abut the proscribed properties or uses.

Have a great day, all!
