### COMMITTEE REPORTS:

---

### BACKGROUND INFORMATION/FISCAL IMPACT:

(Includes reason for proposal, as well as any unique statutory requirements)

During the review of the FY 2005 school construction program, the Council reserved the authorization of funds requested by the Board of Education for the construction of additions to existing high schools pending an evaluation of the relative merits of constructing significant additions and the construction of a new high school. The proposed resolution will establish a task force to evaluate the alternatives and report its recommendations to the County Executive, the County Council and the Board of Education in September.
