------------	----------------	-------------------------	------

Action Text:

This Resolution was introduced by Council Members Burroughs, Oriadha, Blegay and Dernoga and referred to the Transportation, Infrastructure, Energy and Environment Committee.

AFFECTED CODE SECTIONS:

BACKGROUND INFORMATION/FISCAL IMPACT:

Residents in Prince George's County are experiencing unprecedented challenges in affording essential services due to the rise of utility costs. Members of the Prince George's County Council have reported that the rising of utility rates, which are approved by the Maryland Public Service Commission, are unsustainable for county constituents. Low- and moderate-income county residents are being forced to make decision between basic necessities and maintaining power in their home.

This resolution stands as a formal request from the County Council to the Public Service Commission to implement an immediate freeze on utility rates for an indefinite period of time. Once the freeze has commenced, the County Council requests that the Public Service Commission conducts a comprehensive review of the factors contributing to the increases and to explore all available avenues to mitigate the financial strain on consumers.
