¹Sources of information, assumptions, and methodologies used

The County's financial consultant, PFM, has provided a cost/benefit analysis model for each of the collective bargaining units. With these models, the County is able to input bargaining rates and dates agreed upon for cost-of-living adjustments and merits. These costing models are created based on payroll runs for each union at a specific time.

²Estimate of changes in County revenues and expenditures regardless of whether the revenues or expenditures are assumed in a recommended or approved budget
