Good morning-

Just circling back to the previous email. If you would like to further coordinate on a meeting with the applicant or if we can answer any specific questions you may have, please just let us know by replying to all on this email.

Thank you-

Monroe

**Subject:** SE-22007 - Gas Light III Surface Mining - Notice of Virtual Hearing

Good afternoon-

Please know that GS Proctor & Associates has been working with the owner/applicant of the Gas Light facility for many years. Specifically, over the last year or more, we have been assisting with outreach related to the proposed Gas Light III phase of the operation, which is the subject of SE-22007. Although we have had several community meetings with various stakeholders, as a result of your attendance this morning at the ZHE hearing that has been continued one week, we wanted to reach out in the hopes of opening dialogue and answering any questions you may have. That is, some of the comments during the abbreviated hearing centered around wanting more information about the application, so we wanted to reach out and offer a meeting with the applicant and some of its consultants.

While the applicant is happy to meet with you in person, at your convenience, we are also happy to set up a virtual meeting early next week based on your availability. If you would like to further coordinate on a meeting with the applicant or if we can answer any specific questions you may have, please just let us know by replying to all on this email.

Thank you for your response and for attending today's abbreviated hearing-

Monroe
