10 The Prince George's County Code

11 (2019 Edition; 2022 Supplement).

12 SECTION 1. BE IT ENACTED by the County Council of Prince George's County,  
13 Maryland, that Sections 10A-158.00.02 and 10A-158.00.03 of the Prince George's County Code  
14 be and the same are hereby added:

15 **SUBTITLE 10A. PURCHASING.**

16 **DIVISION 6. SPECIAL PROVISIONS.**

17 **SUBDIVISION 13. PROJECT LABOR AGREEMENTS.**

18 **Sec. 10A-158.00.02. Legislative findings and policy.**

19 (a) The County Council finds that the County manages and oversees a significant capital  
20 construction budget and is committed to ensuring that capital construction funding helps create  
21 high quality careers in construction for Prince George’s County residents, including women, all

1 ethnics groups within its population, veterans, returning citizens, and residents with social and  
2 economic disadvantages.

3 (b) The County Council finds that the County is one of the nation's most economically  
4 affluent counties with a majority African American population, but that significant segments of  
5 its population face economic, educational and career development obstacles.

6 (c) The County Council finds 8.8 percent of County residents were unemployed in 2021;  
7 that approximately 78,000 county residents currently live in poverty, two-thirds of whom are  
8 African-American; and that approximately 30 percent of County high school graduates do not  
9 attend college.

10 (d) The County Council finds that the County has the highest unemployment rate in the  
11 Washington Metropolitan Statistical Area, demonstrating the need for the creation of economic  
12 opportunities and career pathways for historically disadvantaged and under-represented people as  
13 a foundation of the county's continued development.

14 (e) The County Council finds that project labor agreements, as outlined in Sec. 10A-157  
15 Declaration of findings and policy, are strategic vehicles for addressing the legitimate needs and  
16 interests of underserved populations that historically have been excluded from the benefits of  
17 economic and career path development.

18 (f) The County Council finds that project labor agreements are an effective tool for  
19 promoting access to construction career opportunities for members of targeted communities and  
20 populations and help strengthen community-labor partnerships by establishing enforceable labor  
21 standards through collective bargaining that protect job quality.

22 (g) The County Council recognizes that well-trained workers earning family-supporting  
23 wages with employer-sponsored health insurance and retirement plans contribute to the  
24 economic prosperity of the county and reduce the need for county-provided safety net services.

25 (h) The County Council finds that local and state governments across the country have  
26 successfully leveraged tax dollars to uplift citizens in their respective districts through the use of  
27 project labor agreements.

28 (i) The County Council finds that project labor agreements have been underused by the  
29 County, and that a pilot project labor agreement targeting on construction projects that create  
30 entry-level positions for residents is both necessary and desirable.

**Sec. 10A-158.00.03. Pilot Project Labor Agreement on CIP 4.66.0002, Curb and Road Rehabilitation 2 Projects.**
