The Government Operations and Fiscal Policy Committee convened on September 24, 2025, to consider CR-086-2026, a resolution concerning government transparency, performance, and accountability workgroup for the purpose of establishing a workgroup to review County agency performance data and make recommendations for periodic performance reporting requirements.

Council staff provided an overview of the legislation, which states: consistent reporting of agency performance will inform annual budgetary decisions and allow the County government to more effectively and efficiently allocate public funds to best serve County residents. If enacted, the Government Transparency, Performance, and Accountability Workgroup shall be comprised of nine (9) members, as follows: one (1) representative of the County Council selected by the Chair of the Council, who shall be designated Co-Chair of the Workgroup; each of the five (5) Deputy Chief Administrative Officers or their respective designees; and three (3) members of the general public selected by the Chair of the Council.

The Workgroup shall study and make findings and recommendations on the following matters related to agency performance reporting:

2. qualitative support for the recommended data points;

3. the frequency of recommended reporting;

4. the most effective means of making performance data available to the public; and

5. any other matters that will improve government accountability, both internally and externally.
