RE: CR-085-2026

The Office of Law has reviewed the above referenced resolution as it was introduced on September 1, 2026 and offers the following comments:

1. Number of Workgroup Members

   Page 2, Line 15, states that the Workgroup "shall be composed of eight (8) members", however, nine (9) membership categories are listed below in lines 16 - 24. Please revise the number of total members in line 15 to reflect the correct number of members.

2. County Organizations

   Page 2, line 12 provides that the Workgroup will "evaluate County organizations and services. The term "County organizations" can be interpreted very broadly. We suggest editing the language to be more specific.

Suggested Language: “evaluate County agencies, programs, and services relating to autism equity to make recommendations on how to improve.”
