

**Criteria for  
Priority State Projects within  
Prince George's County**

The State Consolidated Transportation Program (CTP) Priority Projects List is developed by staff of the Department of Public Works and Transportation in coordination with the staff of the Maryland-National Capital Park and Planning Commission (M-NCPPC). After which, the CTP List is forwarded to the County Executive and Council for review, approval and transmittal to the Maryland State Department of Transportation through a joint signature letter.

Criteria used to prioritize the List are as follows:

**Safety Improvements** - Each project is evaluated to determine the safety enhancements to be achieved for all users in response to data and determined needs.

**Capacity Improvements** - Each project is evaluated to determine the capacity improvements to be provided for the transportation facility users in response to the needs.

**Revitalization** - Each project is reviewed to determine the project's contribution to the County's revitalization initiatives and improvements to each community's well-being and environmental sustainability through the implementation of current, sound and sensitive practices.

**Economic Development** - Each project is evaluated to determine the project's contribution to the County's economic development policies and goals.

**Mass Transit** - Each project is evaluated to determine the project's contribution to the County's Master plans for implementation of transit services with emphasis on intra-community transit needs.

**Project Schedule** - Each project schedule is evaluated to assure the progression of projects from the planning stage into the construction phase for each subsequent year. The availability of projects for the construction phase assures that county projects are available to compete for construction funding each year.

**Other Funding Sources** - Each project is evaluated to determine the availability of “other” funding sources to supplement State and federal funding provided in the CTP.

## **II. State Highway Administration (SHA) Priority Projects:**

The SHA Priority Projects List is intended to provide guidance to SHA on the order in which Prince George's County's elected officials desire project planning to start and see actual construction take place. The recommended projects have been prioritized from a strategic planning effort to provide: the greatest benefit to areas inside or adjacent to the Beltway; much needed safety improvements; and economic development growth within the County. Historically, projects currently funded for construction in the Consolidated Transportation Program (CTP) are expected to proceed to construction based on the published funding schedule, which ordinarily would be excluded from this priority list.
