STUDENT SUCCESS Pathways

PRINCE GEORGE'S
COMMUNITY COLLEGE
Transforming lives.

Pathways- Integrated, Institution-wide approach to student success based on intentionally designed, clear, coherent, and structured educational experiences, informed by available evidence. Starting fall 2018, new students will be able to select both an Academic and Career Pathway, and a program of study that:

- Shows students a clear pathway to completion, further education and employment in fields of importance to the region.
- Align with the requirements for success in employment and further education in a given field.
- Provide resources and services to support students utilizing technology, a strong advising process and embedded academic and non-academic supports.

Creating and sustaining optimal conditions for students to design and achieve academic, career, and personal goals

WORKFORCE DEVELOPMENT

PRIMARY OBJECTIVE - REGIONAL IMPACT

Implement a system of regional business, community, and education partnerships that respond to the region's present and future priorities

Partnerships that impact economic investment in the County and College

Value-driven partnerships that support academic and career programs

Philanthropy, civic engagement, and the appreciation for diversity and the arts

Transforming lives.

PRINCE GEORGE'S
COMMUNITY COLLEGE

REGIONAL IMPACT Talent Development

Workforce Development is the core of growing collaboration with business, government, trade, and community organizations. Partnerships with employers, community based organizations, and government agencies multiply the impact of training and education programs.

- **Stackable and portable credentials**
- **Industry or employer engagement in curricular development.**
- **Applied and experiential learning**
- **Competency-based**
- **Customized solutions**

Interconnected set of workforce development and training solutions to meet the County's and region's current and emerging economic and workforce development trends.

Programs to promote students' long-term success as well as immediate labor market outcomes

Innovation and Entrepreneurship

June 19, 2018 Prince George's Community College, entered a Memorandum of Understanding with the City of Seat Pleasant and the Prince George's County Chamber of Commerce pertaining to Smart Cities education and workforce development.

Seat Pleasant's Smart City development will deploy sensors throughout the city that collect data about residents' health and the environment. The partnership with PGCC and the Chamber of Commerce will support the city by ensuring that there is a pool of qualified candidates who understand and can maintain the technologies vital to Smart City development.
