CB-019-2026 Proposed DR-2A

Rana Hightower, Director, Planning, Housing and Economic Development (PHED) Committee, provided a verbal report of the actions and recommendations of the PHED Committee for CB-019-2026.

This bill removes the exemption from detailed site plan (DSP) review for proposed qualified data center uses. By way of CB-001-2021, the District Council added qualified data centers to the list of available uses in Prince George's County, a measure which followed the 2020 passage of a County tax exemption to attract more data center projects to the County. To further incentivize the development of such projects, the County exempted data center applications from detailed site plan review, thereby shortening the time for development approval.

However, in response to a growing desire for more public scrutiny of such projects, this bill removes that exemption. If enacted, data center development applications will be subject to more public input by way of required pre-application neighborhood meetings and public hearing before the Planning Board. Additionally, data center applications may be subject to a public hearing before the District Council, by its own election or on appeal from the applicant or an aggrieved person.

This Council Bill was introduced by Council Members Oriadha, Blegay, Dernoga and Adams-Stafford.

Rana Hightower, Director, Planning, Housing and Economic Development (PHED) Committee, provided a verbal report of the actions and recommendations of the PHED Committee for CB-035-2026.

This bill seeks to increase the number of childcare facilities in Prince George's County by relaxing certain zoning requirements for child day care centers. Specifically, the bill permits day care centers for children by right in all zones in which currently require special exception approval. Additionally, day care centers would be exempt from the requirements of detailed site plan approval, deferring site plan review until the building permit stage. While pre-application neighborhood meetings will no longer be required, day care center providers must post notice of the permit application within 30 days of filing. Finally, the bill reduces minimum parking standards in three ways. First, minimum parking requires in the edge portion of transit-oriented zones will be eliminated. Parking requirements in the edge portion of Town Activity Center zones are reduced in this bill to match the level required in the core areas of those zones (1

space per 20 children). Finally, the bill allows parking requirements to be met with on-street spaces abutting the day care center, mirroring the incentive offered by neighboring Montgomery County.

This Council Bill was introduced by Council Member Oriadha.

Rana Hightower, Director, Planning, Housing and Economic Development (PHED) Committee, provided a verbal report of the actions and recommendations of the PHED Committee for CB-077-2026.

This bill promotes the productive reuse of commercial buildings within residential neighborhoods by permitting certain uses in the Residential, Single-Family Attached (RSF-A) Zone. Specifically, the bill allows a restaurant use to be conducted in the RSF-A Zone, provided that the restaurant is located in an existing commercial building and does not expand beyond the footprint of that existing building. The proposed restaurant will also be reviewed for its impact on traffic and the general character of the surrounding neighborhood. Finally, the bill also permits certain places of worship in the RSF-A Zone, provided that certain development standards are met. To ensure compatibility with the surrounding neighborhood, this use will also be evaluated on the suitability of its location and its impact on the surrounding properties.

This Council Bill was introduced by Council Member Oriadha.
